

UNIVERSITÀ
CATTOLICA
del Sacro Cuore

9th International Workshop on Grapevine Downy and Powdery Mildews

20, 21 and 22 July 2022

Università Cattolica del Sacro Cuore, Cremona (Italy)

In the spirit of the previous 8 GDPM workshops, the free exchange, and critical in-depth discussions of current research and advisory systems is crucial to the **future of grapevine production worldwide**. This workshop is a comprehensive presentation and discussion of fundamental, transnational and applied work from around the globe. **More than 50 attendees** enrolled to the Workshop confirmed the actual interest and the importance of the topics. **This is a valuable occasion for knowledge uptake for everyone working into the sector.**

Scan me!

Four sessions are foreseen for both pathosystems: **i) Breakthrough technologies, ii) Genetic and breeding, iii) Disease management and iv) Disease epidemiology and forecasting**
